Schweizer Energy Pte. Ltd. founded

Schramberg, May 25, 2011 – Schweizer Electronic AG today announced the foundation of Schweizer Energy Pte. Ltd. based in Singapore. The foundation of this entity, a 100% daughter company of Schweizer Electronic AG, is part of the already communicated company strategy, focussing on the growth region Asia as a supplement to Europe and on the area of renewable energy. The newly created division Energy constitutes a complimentary expansion of the existing divisions PCB and Tracing.

„With Singapore, the economic hub for Asia, we have chosen an ideal location for exploiting the Asian markets“, says Dr. Marc Schweizer, CEO of Schweizer Electronic AG and now also President of Schweizer Energy Pte. Ltd. „Furthermore, process and manufacturing know-how for products and services in the area of energy is similar to the one applied to manufacturing of PCBs“, Schweizer explains. As the world’s biggest PCB manufacturer for the solar industry the company draws upon comprehensive sales experience and market knowledge.

About Schweizer:

Schweizer Electronic AG (WKN 515623) is one of the Top 3 PCB manufacturers in Europe with recognized technology and consulting expertise in the field of automobile, solar and industrial electronics. The company was established in 1849 and is currently managed by the sixth generation of the family.

Schweizer Electronic is focused on complex multilayer and HDI circuits as well as solutions for reducing the system cost and improving the integration of active and passive components on the PC board. In addition, Schweizer Electronic has many answers to the challenges of modern power electronics. With its network of partners, Schweizer Electronic AG offers optimal cost and manufacturing solutions for small, medium and large series.
