

## Press Release

February 15, 2016

### **Schweizer Electronic now member of ECPE (European Center for Power Electronics e.V.)**

Schramberg, February 15, 2016 – Schweizer Electronic AG has joined the European Center for Power Electronics e.V. (ECPE), a network of industrial enterprises from the field of power electronics as well as universities and research institutions.

“As a leading PCB company for power electronics solutions, we are very interested in the ECPE network and its activities. The regular exchange between production and institutional research and development is vital for the further development and competitiveness of a company, which is active in such a dynamic business sector,” says Christian Roessle, Vice President Sales and Marketing at Schweizer Electronic AG. “Over the last years, PCBs have become more and more important as platform for power electronics solutions. Thanks to its heavy copper-, inlay-, combi- and IMS boards as well as the p<sup>2</sup> Pack, SCHWEIZER is a leading manufacturer in this sector. Becoming part of the ECPE community therefore is a logical consequence. As member of the ECPE, we will have quick access to the latest research projects and programmes enabling us to further expand our regular exchange as regards innovative solutions, and this benefits our customers as well”.

#### **About the ECPE (European Center for Power Electronics e.V.)**

The ECPE European Center for Power Electronics e.V. was founded in 2003 by eight industrial enterprises as an industry-driven Research Network for Power Electronics in Europe. In the meantime the network comprises more than 75 member companies. Furthermore, more than 80 European universities and research institutes are integrated in the network as so called Competence Centres.

#### **About Schweizer:**

Schweizer Electronic AG stands for state-of-the-art technology and consultancy competence. SCHWEIZER's premium printed circuit boards and innovative solutions and services for automotive, solar, industry and aviation electronics address key challenges in the areas of Power Electronics, Embedding and System Cost Reduction. Its products are distinguished for their superior quality and their energy-saving and environmentally-friendly features. Together with its partners Elekonta Marek GmbH & Co. KG, Meiko Electronics Co. Ltd. and WUS Printed Circuit Co., Ltd., the company offers in its division electronics cost- and production-optimised solutions for small, medium and large series. Together with its partner Infineon Technologies AG, SCHWEIZER plans to jointly tap the chip embedding market in future.

With about 750 employees SCHWEIZER achieved sales of 110.2 million Euro in Fiscal Year 2014 (ending December). The company was founded in 1849, is managed by family members and listed at the Stuttgart and Frankfurt Stock Exchanges (ticker symbol „SCE“, „ISIN DE 000515623“).
