## OUTLOOK

The development for 2022 is difficult to assess due to the geopolitical situation. Despite the very high order backlog, there is a great deal of uncertainty. Taking into account the currently known opportunities and risks, the Executive Board expects further sales growth of between +5 and +15 percent for 2022 (just under 130 to 140 Mio. EUR). The EBITDA ratio is expected to be between -4 and -8 percent.
